Having a firm mini flag on your desk is a must nowadays. Use the table flag to strengthen your brand by giving it as present for your company workers, customers or cooperation firms which you do business with. The standard sizes for these flags are 15X10 cm and they can be ordered with any nationality or a personal printing order.

We offer a wide range of stands for Stick Flags, stands with up to 5 holes in black, gold, made of wood or iron and it is possible to engrave every symbol or writing you wish for.

With that, it is optional to add spear, crosses or ball tops for the poles that hold the flag.
